## Sugarbeet Basket Type RK50-90

The Sugarbeet Basket is designed for a working pressure of 170 - 200 bar, making it applicable to almost all types of cranes.

Max. pressure 200 bar.

The horizontal and well-protected cylinder provides extra low construction height, high closing force and quick opening time of the basket.

The cylinder is adjustable for compensation of wear.

The fastening method of the grapple's base makes changing these easy and effortless without the need for special tools.

Individual adjustment of link.

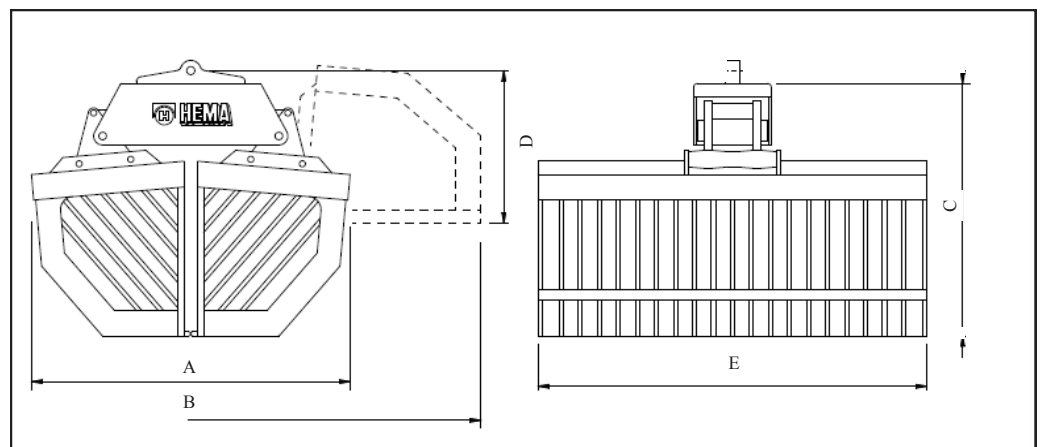

As a special model, the basket can be delivered with closed shells, as well as welded blades for handling crops and similar materials.
