

# HEMA Steel Cutter

Model VTN CI

The CI Cutters are designed for many types of cutting and shredding of steel and iron.

The tool can be used both for cutting steel and iron during demolition or on waste disposal sites and junkyards.

The cutters are made of HARDOX 400 steel that can withstand big loads and both the cylinder and rotation are well protected.

The cutters are fitted with replaceable and reversible shades that can be reversed 4 times.

All CI models are supplied with 360 ° rotation prepared for mounting of adapter plates.

The CI can be supplied with an adapter for most types of machines and for quick coupling.

CI Iron & Steel Shear  
with changable and reversible  
shear og integrated 360° rotation
