

# HEMA Steel and Concrete Shears

Model VTN MT

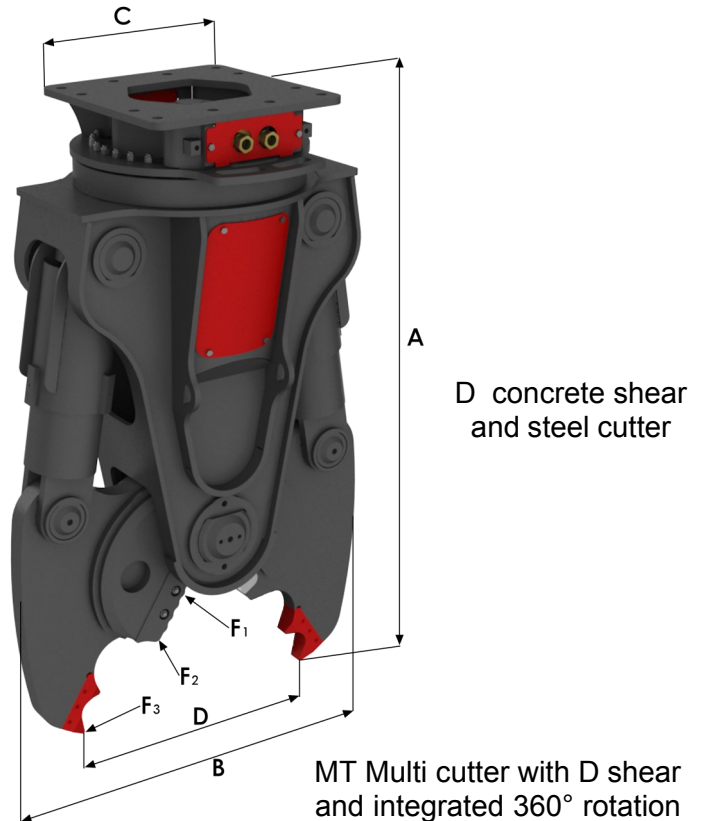

The MT is designed for many forms of cutting and shredding of steel and concrete.

All MT models are delivered with 360 ° rotation prepared for mounting of adapter plates.

The MT can be supplied with an adapter for most types of machines and for quick couplings.

The entire tool is made of high strength steel that can withstand big loads and both the cylinder and rotation are well protected.

There is possibility of mounting different special cutters depending of the tasks needed.

**P Shear**  
Concrete Crusher

**S Shear**  
Iron Cut

**W Shear**  
Wood Cut

**R Shear**  
Combi Cut

**T Shear**  
Tank and Plate Cut

Model	Weight kg.	close power T F1- F2 - F3	Total lgd. mm	Rotation 360° bar- ltr/min	open / shut bar- ltr/min	Max opening mm	Machine mass tons
MT 03	392	62-32-25	1140	120 - 5	220 - 30/50	372	3,5 - 5,5
MT 05	625	100-75-50	1390	120 - 5	220/350 - 70/110	545	5,5 - 10
MT 10	1060	175-105-70	1620	120 - 30	350 - 90/140	670	10 - 15
